

Dawson Wam

Foundation works  
for camera towers

August 2018

10 Weeks

**We were contracted by Dawson Wam to supply specialised piling labour teams, 2nr Klemm 709's and all of the required ancilliary equipment for the installation of restricted access mini piles.**

This job entailed the installation of 90nr PTZ tower foundations on a stretch of the M6 motorway between junctions 2 and 4. Thr foundations comprised of 600mm diameter CFA piles, between 3 and 5 metres deep complete with concrete and 457mm diameter reinforced CHS tube.

All works were carried out during mid week days, under a single lane closure and was completed within the required timescales with zero accidents and incidents.

Our client was impressed with the overall service we offered and the quality of workmanship we supplied.

This job is a great example of the level of service our Universal Plant Hire division can offer to your projects.
