

CML

Drainage

April 2022

10 Weeks

Universal Group were contracted by CML to deliver required drainage works on a steep sided embankment at Bath Road cutting, Cheltenham.

Our Piling team worked with our project partners CML to drill and install perforated land drains on a steep sided embankment at Bath Road cutting.

We were contracted to deliver/install:

- 219nr 89mm diameter, 12m long perforated land drains.
- All works were carried out using our Slope Crawler Drill Mast.
