

Octavius

Soil Nailing

April 2022

24 Weeks

Universal Group were contracted by Octavius to deliver the slope stabilisation project at Bincombe Wood, Swindon.

Our Piling team worked with our project partners Octavius to deliver a soil nail and mesh solution to stabilise the embankment at Bincombe Wood, Swindon.

We were contracted to deliver/install:

- 1815nr R32 hollow bar to an average depth of 8m.
- 10,000m² of mesh, associated head plates and wire perimeter rope.
- All were installed using Slope Crawler Drill Masts and Light Weight Drill Masts mounted on long reach excavators.
