

Pod-Trak

Embankment
Stabilisation

November 2021

8 Weeks

Universal Group were contracted by Pod-Trak to deliver the railway embankment stabilisation project at Callow Hill, Chippenham.

Our Piling team worked with our project partners Pod-Trak to deliver the slope stabilisation project at Callow Hill.

We were contracted to deliver/install:

- 100 linear metres of GU21N sheet piles - all at 12m long.
- 84nr ground anchors each at 20m long, complete with waler and capping beam.
